Acidity	0.18-0.22%	0.17-0.18%	0.17-0.18%	0.18-0.19%	
Presence of fiber	Absent	Very Low just beneath the skin	Medium	Medium	Medium
Distinguished traits	Excellent Flavor, Highly accepted by the consumers and has significant volume in export.	Excellent Flavor, Highly accepted by the consumers but shy bearer	Exellent flavor, with great export potential and highly accepted in national as well as international markets.	Excellent variety for national as well as international marketing being exported to different countries. Highly accepted by the manog growers due to mediam regular bearing, late in ripening and earing more income for the groweres.	Fruit bears in clusters

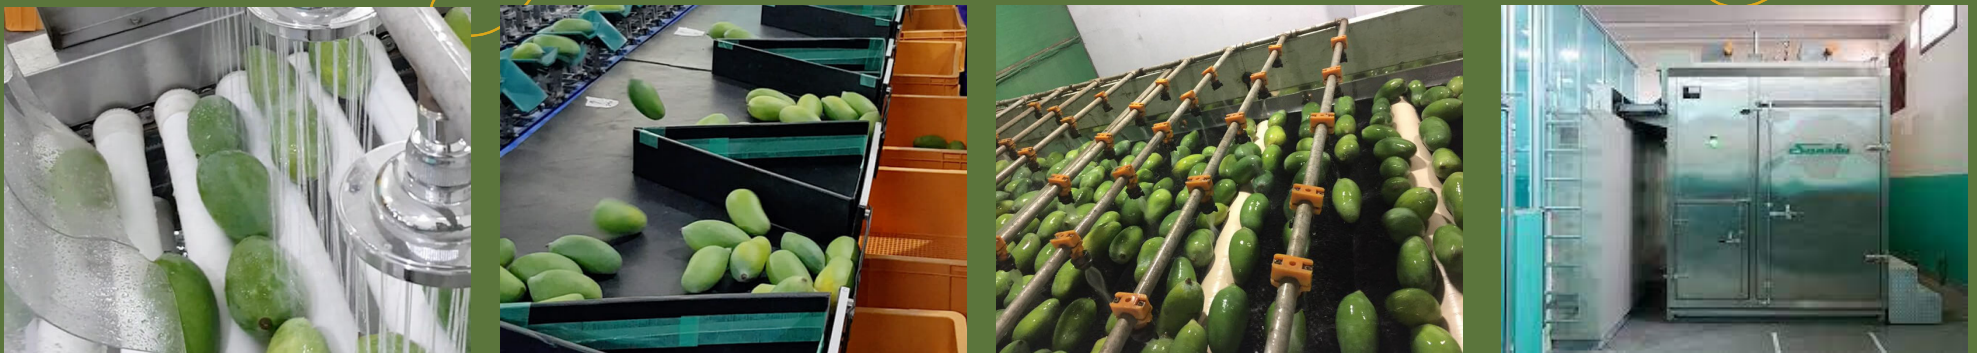

Mango Treatment

Pakistan is one of the largest producers of mangoes which are known world over for their quality, aroma and taste. Reportedly about 100,000 ton of mangoes are exported from Pakistan annually.

In order to reach high end markets of the World (China, Iran, Japan, Australia, New zeland) we are striving to meet WTO/HACCP/ISO and SPS requirements. For the said purpose, we have available facilities of hot water treatment (HWT), vapour heat treatment (VHT) and irradiation.

Hot water Treatment Plant

Vapor Heat Treatment

Packing & Storage

Cardboard boxes of 3Xply or 5Xply are used in export of Mangoes. Most frequently used box sizes are 1kg, 1.5kg, 2kg, 2.5kg, 3kg, 3.5kg, 4kg, 4.5kg, 5kg, 6kg, 7kg and 8kg. Mangoes must be stored at 13C to 16C until they reach at the destination market-shelf.

Regular Checkups by govt. authorities
